Addressing Your Economic Development Concerns

In the past, funding for broader economic development programming in areas such as minerals, small business, tourism and economic diversification, was made available through multi-party economic development agreements coordinated by STC. These investments had very little growth or results.

Building on this status quo, we could now offer a strategic economic development plan that will be catered and tailored to the needs of the community on and off reserve.

- Strategic business partnerships
- Employment Standards: Fairness in the workplace
- Action to increase skills training & Apprenticeship opportunities
- Consultation with membership
- Education opportunity plan
- Elder and youth involvement

Securing Your Future

Leadership will encourage innovation and provide guidance to keep jobs in MLCN. We will put emphasis on hiring qualified Muskeg Lake sub-contractors. We will invest in new energy solutions, affordable housing and educational opportunities for our members and youth. We will ensure that opportunities are shared communally. Our new Leadership will ensure that every member can share in our potential. We will put you & your family first.

Diversify Muskeg Lake Cree Nations Investments & Holdings

The Strategy Solutions will foster community growth on and off reserve, to assist the community with long term goals and opportunities to secure MLCN economic future.

Realizing Your Dream

What is your dream? What is it that you most desire but don't currently have in your life? What is it that you are meant to be doing with your life?
