ABOUT ME

My name is Clayton Ledoux. I am 44 yrs old and a member of Muskeg Lake Cree Nation. I have a wife, and 6 children and two precious nosimak (grandchildren).

My parents are Gil and Debbie Ledoux. I have three brothers. I have been an athlete most of my life in hockey and ball and am well known in those circles.

I am drug and alcohol free and have been for a long time now. I feel that this alone is an incredible asset to have as it is important to have a clear and open mind in order to serve the people well and to better our community.

I was an RCMP member for 5 years in which I gained an enormous amount of experience in leadership, community development, relationship building and was able to build trust and gain respect of the community members that I served. I have also been a Red Seal Journeyman Electrician for 17 years and counting.

ABOUT ME

My most recent position was as a Coordinator with SIIIT, serving our First Nations Communities and partners. (I have taken a leave to focus on my campaign). I am now searching for the opportunity to be your next Chief. I am not taking this journey lightly and as I've said before, I firmly believe that no one should ever take this journey lightly.

I have a very good head on my shoulders and have always been taught to treat people with kindness and respect, to be truthful and honest and to do the right thing.

I follow a long line of leaders starting with my great moshum who was Chief of Muskeg Lake for 25 years, and my dad who led this community for 12 years. Two very good men that I am very grateful to try and follow in their footsteps.

On March 6th and March 8th, 2021, I humbly ask you to vote for me. I believe I have what it takes to lead our community and all I ask for is that chance. Nanaskomin, thank you, hiy hiy.

CLAY LEDOUX FOR CHIEF

THE ISSUES THAT MATTER

Muskeg Lake is known for its' history full of Veterans. I believe that our Veterans should always be honoured and respected. They risked their lives to ensure a better life for future generations. Their sacrifices and heroism should never be forgotten.

I believe that our Elders are one of our most valuable assets. They have lived long lives and triumphed through tragedies, sacrifices and challenges to survive and ensure their children and grandchildren survived and thrived. They are rich with knowledge, history and culture and have earned the right to be respected and honoured. I believe that we can and should do whatever we can to improve their quality of life and ensure their needs are taken care of.

I also believe it is important to acknowledge our youth and provide opportunities for them, as they are our future leaders. We need to be good role models for them and show them a good path to a good, healthy life. We need to provide more opportunities in the areas of culture, language, education, and sports. I have many ideas that I am excited to get started on.

I also know that housing is an important issue. I have many ideas that are waiting to be put into action that can benefit our members (both on and off reserve). There are partnerships that we can make to not only improve our housing situation but also provide opportunities for training and employment.

Training and employment for our members is another area that I am passionate about. I believe we should provide our band members with employment opportunities first before outsiders. I believe that we can utilize those partnerships that I talk about to provide training for those who need it and help our members to be successful.

Communication and accessibility is something that I believe is important. Band members need to be heard and their concerns validated. If you know me, I am always the person willing to listen to what someone has to say.
