Notice to Dog Owners

Please be aware that you know where your dog is always.

There have been incidents in Gregville with dogs (two or three) attacking young children when they went to play in the park.

We ask that you ensure that your dog is either fenced or tied up while the kids are playing at the park.

We do not want an incident to become fatal for children, it has been known to happen where dogs pack up and become aggressive toward young children and attack them.

Please fence your dog or tie him/her up during the hours that the children frequent the playground.

This is to prevent a tragedy in the community concerning dogs.

Thank you for your cooperation.

Dennis Greyeyes
Lands Coordinator
